By HUGH S. FULLERTON. This is like comparing Goldberg GRIFFMEN HAMMER

Dode Paskert, who has carried the nterfield's burdens for the triphant Phillies this year, is the unluckiest guy in baseball in that now must be compared with Tris Speaker. Compared with a lot of ther centerfielders, Dode would nake a fine showing in figures, but against that unhuman being Speakthe dope makes him look like a 1912 Ford alongside a 12-cylinder

mousine.

There is nothing to it. Speaker sutclasses Pasket so far that the Red Sox pile up a huge lead in the dope, which will have to be offset in other directions.

I was so anxious to see the teams compared in other departments that I switched from the infielders and looked over the outfield, and the further one goes in the figures on those fellows the worse the chances of the Phillies seem.

However, remember that attacking strength of any team is 68 per cent of the total game, that defensive strength is 32 per cent, and that, of defensive strength, the pitcher is 38 per cent and the centerfielder outclasses his rival and neither of them get a chance, the worst amateur is just as good as Cobb—for that game.

Doc Ayers won his second start of his career against the Mackmen, 19 to 2, but the Game of the game of the search of the words would hardly describe that collection to make Mack turned loose twice the worst amateur is just as good as Cobb—for that game.

The deciding game of the charter teams in the season was sufficiently by Grover Cleveland Alexander, who let down the Braves with a lone bingle and copped, 5 to 0. Sherring and copped, 5 to 0. Sherring and copped to the season was sufficiently by Grover Cleveland Alexander, who let down the Braves with a lone bingle and copped to the first thing, 10 to 2, and the second, 20 to 5. It must be painful to an extreme for good ball players like "Bluffy" Mc.

However, remember that attacking strength of any team is 68 per cent of the total game, that defensive strength is 32 per cent, and that, of defensive in the control of the charter teams in the disappointment is expected. It will be game disappointment is expected. It will be disappointment is expe

Boston's pitching staff is fine. But there are lots of pitchers who would be great if they knew that, whenever they were in the hole to a batter, they could groove a ball, let him hit as hard as he could, and that out there in center field was a follow who could romp clear to the bigachers, go either direction, cover an acre of ground, and save him.

I have figured Speaker worth almost one and a half hits a game to his pitchers. In one game against Chicago I saw this fellow and Hooper catch five long driven fly balls that not one of the White Sox outfielders would have laid hands upon.

Worse than the first, Bert Gallia going right field wall, scoring Cobb and along to a victory, 20 to 5. The visitors dropped fies, misjudged others, threw wildly, couldn't hit, couldn't run, and were jokes. Reverse these things for the Griffs and vou have an idea why the score was so one-sided.

Manager Griffith turned loose all his rockies, and they looked as good as the regulars. They hit the ball at will, and showed speed in every way. They ran around till their tongues protruded. Barber led both teams with the bat, poling the hits in six times up, but after him came Williams, Connolly, Eph Milan, Kid Jamleson, Eddie Foster, and Tom Sawyer.

Down below here you will see why no details of the slaughter are given. It would be cruelty. Here are the totals:

FIRST GAME

Worse than the first, Bert Gallia going right field wall, scoring Cobb and victory, 20 to 5. The visitors, the winding runs.

The Cubs hopped into fourth place by winning, 5 to 4, from the Reds. Zimmerman, Schulte, and Goode poled homes all his rockies, and they looked as good as the regulars. They hit the ball at will, and the will and the will and the will and the will be caused the contest.

Dode Paskert is a pretty good ball player, mechanically. He has nerve, he covers a lot of ground, and he has a dash of speed on the bases.

He never has been rated as a smart ball player, and at Cincinnati, where he served an indeterminate sentence until he finally was paroled to the Phillies, he was rated a "bone." He has been a time to be a much improved ball player with Philadelphia, and has not shown much of the bone stuff the Cincinnati scribes accused him of displaying. He has

scoused him of displaying. He has shown much more "pep" and ambition. The chances are that his showing at Cincinnati was due to natural lack of interest and carelessness, rather than

Cincinnati was due to natural lack of interest and carelessness, rather than to inability.

He is a cracking good man for pitchers, because he goes back well after fly balls, and the Boston grounds, with their depth, will afford him ample opportunity. He helps pitchers by watching closely, and he shifts well around the field for batters and covers up close to second, possessing great speed in a forward dash.

On the attack he is dangerous and discovered and the field of the stack he is dangerous and the stack he is dangerous and the field for batters and covers up close to second, possessing great speed in a forward dash.

a forward dash.

On the attack he is dangerous, and he hits left-handers well. He runs the bases much better than his figures for the season indicate. He has not been running to amount to anything this year, but evidently Moran's plan of campaign does not include the stolen base at all. Evidently Paskert did not get fully into the ambition and the stride of the team until late, for his work has shown improvement only in a marked degree since it became evident that the Phillies were due to grab the lag.

Paskert has little of the "punch" that is necessary to win, and he usually uses poor judgment when he starts aggres-dive work. Compared either as a batter, of a jockeyer at the plate, as a worrier of pitchers while batting or on the bases, as a baserunner, in using judgant as to when to try for extra bases, and as a fielder or as a thrower, he does ot compare with Speaker.

Speaker, indeed, is, next to Cobb, the most perfect all-round player in the ame, and do it better than almost anyme. He beats Cobb throwing both for trength and accuracy, but he does not nake the plays Cobb does, or try to orce a play or draw it on.

You can figure safely that Speaker's atting average will be trimmed confiderably in this series chiefly because if Alexander. He will hit the others unless Rixey has one of those good days.

ater I shall explain to you why I igure on Rixey affecting the batting of he Red Sox. I know Moran's battle lan fairly well, and I am deducting of he Red Sox. It ought to work, and if it does Speaker's slugging will be reduced considerably.

On October 8, Other Side Demanding Next Day.

CHICAGO, Sept. 30.-A wrangle over the opening date of the world series was forecast here today by the statement of Ban Johnson, who declared that he will ask the National Commission to set October 8 for the first game. The commission will meet Saturday in New York. The National Leaguers want to open October 9, to give Alexander a chance to work in the first two games.

...303 002 000-10 Handicap For All Ages At Six Furlongs Attracts Greatest Attention.

> Racing in Maryland will be transferred tomorrow from Havre de Grace to the pretty course of the Maryland State Fair at Laurel Park, and for the entire month of October the thoroughbreds will be seen under colors there. Interest in the opening day's card, of course, will center in the Laurel Handicap, for all ages, at six furlongs. Handicapper Vosburgh yesferday announced the weights for the race and assigned Thompson-Whitney five-year-old Harmonicon, by Disguise-Harpsichord, the top weight of 132 pounds. Ten Point is given the next highest impost, and the weights are graduated nicely down to the lowest. It is hardly probable that Harmonicon will be a starter in the Laurel. If the Whitney stable starts anything, it will likely be Sandman, but the latter's races have not been good enough to give him a chance.
